

– James  
Wellbees employee

## Our people

Our employees at Wellbees are well trained and committed to delivering high quality results for our customers. We have a very enthusiastic workforce who love turning up for work each day. They enjoy having a purpose and structure to their day and being part of a busy team.

Our aim is to continue growing our business so we can offer more people with various disabilities meaningful employment. We currently support almost 40 employees, and our vision is to increase that to 150 over the next five years.

## Our difference

**Our team take pride in making high quality wooden frames your bees will love naturally, giving them the best chance of producing high quality honey.**

- ▶ Our bee frames are sourced and made from pine grown in Australian Certified Forests. They are light and strong, providing you with a more durable, longer lasting product.
- ▶ We have a range of standard sizes that can be supplied quickly. We can also work with you to make frames to suit your individual specifications.
- ▶ No order too large or too small. We offer bulk order discounts and have the capacity to deliver large quantities across Australia without compromising on quality.
- ▶ When you buy our bee frames you are also supporting the wellbeing of people with a disability.

NEW HORIZONS  
*Wellbees*  
Bee frames. Built well.

powered by

**newhorizons**  
wellbeing. done well.

At Wellbees, we specialise in providing quality Australian-made frames for bee hobbyists and commercial beekeepers who want to produce the best honey possible.

Unlike many options on the market, our bee frames are made from locally sourced quality hoop pine and are tailored to the individual requirements of our customers. No order is too small or too large. We supply everyone from the backyard bee hobbyists to large commercial beekeepers.

**When you order from Wellbees, you're also making a difference.**

As an Australian Disability Enterprise (ADE), New Horizons provide meaningful employment to people with disability.
